Estonia's Harvest Update

Report Categories:

Grain and Feed

Oilseeds and Products

Potatoes and Potato Products

Approved By:

Michael Henney

Prepared By:

Agata Kingsbury

Report Highlights:

Statistics Estonia reports that the 2011 harvest, while progressing at a similar pace as the previous year, generated a slightly higher average yield. Preliminary production estimates are: 761 thousand tons for grains, a little over 135 thousand tons for rapeseed, and 157.6 thousand tons for potatoes.

General Information:

Statistics Estonia reports 2011 sown area estimated at 299 thousand hectares (HA) for grains, 89.1 thousand HA for rapeseed and 9.2 thousand HA for potatoes.

Production of field crops (thousand tons)	Year	
	2010	2011
Cereals	678.4	761.1
Rye	25.0	28.9
winter wheat	148.5	143.7
winter barley	2.1	1.9
Triticale	9.0	13.3
spring wheat	179.1	209.6
Barley	252.7	287.0
Oats	54.5	64.1
mixed grain	7.4	12.5
Rape seed	131.0	135.3
Potatoes	163.4	157.6
